**Total National Observers registered—1,847**

Note: the reduction in total numbers of National Observers from 1,914 on 4 April is due to the removal of observers from government departments, who have been reassigned to a different category. The total number of 1,847 is reached by adding KOMEG (1,065) and all others (782). A precise breakdown of “Others” will be available from STAE at a later date.
